A handwritten signature in black ink that reads 'SAM' in a stylized, cursive font.

Samuel J. Sebastiani
Founder
La Chertosa Wines

Over 120 years ago, my grandfather Samuele was taught by the monks at La Chertosa de Farneta to “mix-it-up” for flavor. They inter-planted their **RED-SOILED** vineyards with different grape varieties to expand the flavors of the resulting wines. These ideas about blending were passed to my father, August, and from him to me. These time-honored concepts are striking **GOLD** in the wine tasting world.

Choosing grapes from select sites featuring red-soil, blending more than one site in the original vineyard, balancing clonal selection and fine tuning aging with new and older oak barrels has yielded a sensation in awards received. We thought you'd like to see the power of these wines as proclaimed by their awards.
